\* Percentiles for HCAHPS "Top-box" and "Bottom-box" scores of the 3,892 hospitals publicly reported on Hospital Compare in December 2012. Surveys are from patients discharged between April 2011 and March 2012. Scores have been adjusted for survey mode and patient-mix.

<sup>1</sup> The "**Top-box**" is the most positive response to HCAHPS survey items. Percentiles indicate how often patients gave positive assessments of their hospital experience. *With "Top-box" scores, the higher, the better.* For example, on "Communication with Nurses," 5% of hospitals scored 87 or higher (95th percentile) in the "Top-box," while 5% scored 68 or lower (5th percentile). The median (50th percentile) score on this measure was 78.

<sup>2</sup> The "**Bottom-box**" summarizes the least positive responses to HCAHPS survey items. Percentiles indicate how often patients gave negative assessments of their hospital experience. *With "Bottom-box" scores, the lower, the better.* For example, on "Communication with Nurses," 5% of hospitals scored 1 or lower (5th percentile) in the "Bottom-box," while 5% scored 10 or higher (95th percentile). The median (50th percentile) score on this measure was 4.
