A missing MS-DRG code does not exclude a patient from being drawn into the sample frame.	M = Missing	Yes

Note: Ineligible MS-DRGs include patients with MS-DRGs for newborn, psychiatric, substance abuse, rehabilitation, or deceased, and MS-DRGs with no assigned type.

If a patient with an ineligible MS-DRG code from the above table is drawn into the sample, please code the Final Survey Status, as “3 – Ineligible: Not in eligible population.”

Please verify that the hospital is not using any of the ineligible MS-DRG codes as a “filler” code (e.g., 999) prior to obtaining the final billing MS-DRG code.

If patient service line is unknown at time of sample frame creation and the patient is otherwise eligible for HCAHPS, then include the patient in the sample frame.
